EKO

Our 2025 collection includes an EKO diary with a cover made of special recycled papers of alternative fibers.

See pg. 36

APPLE

The cover of our Apple diary is made from apple peels.

See pg. 34

BLOCK NEW POSSIBILITIES

Diaries in this collection can also have its own diary block with your logo and company colours.

See pg. 104

WE THINK ABOUT THE ENVIRONMENT

PAPER

We don't necessarily need to cut down trees to make paper
Paper can also be made from seaweed, grass, bamboo,
coffee waste and sugar beet

Even 100% recycled paper can have zero carbon footprint

All our products are printed on FSC®-certified paper

POSSIBILITIES FOR DIARY AND NOTEBOOK COVERS

Covers of diaries and notebooks can also
be produced in an eco-friendly manner:

FSC®-certified paper cover

Vegan leather

Sustainable artificial leather

Covers made from plastic gathered in the oceans

PRODUCTION THAT RESPECTS NATURE

We use renewable resources

We reduce the consumption of energy and materials
by modernising our machinery park

We measure and reduce our carbon footprint

We conscientiously sort waste and send
it off for ecological processing

We choose our suppliers carefully

We comply with the environmental management
system pursuant to ISO 14001:2004

Your printing projects in harmony with nature

Almost every part of our products can be made from the environmentally friendly materials.

Product footprint CO₂ Neutral

We compensate for emissions generated in the production of our products with the purchase of carbon credits. This credit is used to support a selected ecological project focused on wind or water power, forestry, etc. These projects also support vulnerable communities in poor parts of the world and teach them about sustainable economy; this minimises negative impacts on the environment, and your diary or notebook receives a Product footprint CO₂ neutral certificate.

Cover material

The cover is the first thing that catches your eye on a diary. Cover material manufacturers also care about ecological production of materials. In addition to standard canvas and artificial leather, we also offer an alternative to leather made from residue fibres from the industrial processing of apples. Vivella Biolight is another option that contains 44% of biomaterial and meets the strictest sustainability standards, as well as covers made from plastic gathered in the ocean.

Head band, ribbon bookmark, elastic band

There is an increasing amount of suppliers who can provide high-quality, mostly natural materials for your printed matters, such as head bands with a high percentage of cotton (up to 79%) and elastic bands made from residues from the production of single-colour elastic bands.

Paper

We use FSC®-certified paper for our book blocks and endpapers. In addition to FSC®- or PEFC™-certified papers, we can also print on Cradle to Cradle Certified paper, 100% recycled paper, and paper made from sugar beet fibres, which would otherwise end up as biological waste.

ECCO FRIENDLY

FSC®-certified

paper

All **our diaries and notebooks** are printed on **FSC®-certified** paper.

In an effort to take care of our environment, we print our products exclusively on **paper with a verified origin**, which guarantees the legal extraction of controlled wood that is subject to strict ethical, civil and ecological criteria.

Most of the inner pages of our products are printed on a modern INKjet printing machine with **low energy consumption**. It also minimises the amount of paper waste, i.e. prints that are thrown away or handed over for recycling.

NEW

Even more branding options of diary and notebook inner pages with our new powerful digital technology

Benefit from powerful digital technology

Thanks to the new printing machine with integrated production line, you can make even more use of the advertising potential of the inner pages of diaries and notebooks, even for low-volume orders.

Get inspired

IMPORTANT INFORMATION:

- Minimum total print run of book blocks for standardized formats and paper weights: 300 pcs
- Cover production: at least 300 pcs per design
- Printing and sewn binding, including endpapers, on one production line
- Casing-in of sewn book blocks in a softcover or hardcover

OUR TIP for smaller print runs: In standardized formats and paper weights, the graphics of the inner pages may differ from piece to piece.

Therefore, you can create your own sets or bundle of various orders with the same specification, format and cover design within a single order. For instance, in one print run, you can order 100 diaries, 100 lined notebooks and 100 notebooks suitable for your meetings.

Inner pages options
